EDUCATION

University of Illinois Urbana-Champaign

Champaign, IL

Bachelor's of Science, Computer Science & Education: Learning Sciences, Minor in Statistics

GPA: 3.77 / 4.0

Relevant Coursework: Data Structures & Algorithms, Intro to Computer Systems, Discrete Structures, Linear Algebra, Statistics & Probability I

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML/CSS, SQL, C, C++, C#

Frameworks & Tools: React, Flask, Docker, REST APIs, Git, SQLAlchemy, Linux, Jupyter, NumPy, Pandas, Matplotlib

AI/ML: Gemini API, SciPy, Google Colab

EXPERIENCE

Information Technology Computer Assistant (Hardware/Software)

May 2026 – Present

IT Partners, College of Education, University of Illinois Urbana-Champaign

Champaign, IL

- Diagnose and resolve hardware and software issues for faculty, staff, and students across classroom, office, and Linux-based computing environments
- Manage device setup, OS configuration, and ongoing maintenance of institutional technology infrastructure

Community Service Girl Scout Workshop Co-Chair

Sep 2025 – Present

Society of Women Engineers

Champaign, IL

- Co-design and lead hands-on engineering and CS workshops for **15+** Girl Scouts, promoting early interest in technical fields
- Coordinate event logistics, volunteer scheduling, and activity planning across multiple sessions

Marketing Committee Co-Chair

Jan 2025 – Present

Reflections | Projections

Champaign, IL

- Lead outreach strategy for the largest student-run tech conference in the Midwest, serving **1,000+** annual attendees
- Manage a committee across social media, graphics, and video content, delegating tasks and aligning campaigns to conference goals

CS 124 Course Assistant Tutor

Jan 2025 – Aug 2025

University of Illinois Urbana-Champaign

Champaign, IL

- Tutored **1,000+** students in Java fundamentals via the course's online platform, covering problem-solving, debugging, and core programming concepts
- Conducted one-on-one code reviews for student Java applications, reinforcing object-oriented design and data structures

Summer Exploration Youth Program Leader

June 2022 – Aug 2025

Skokie School District 69

Skokie, IL

- Supervised and mentored **20+** students across K–8 in daily camp activities including coding, sports, arts, and team-building over **4** summers
- Coordinated logistics and maintained regular communication with parents and staff to ensure a structured, safe environment

PROJECTS

Algorithm Storybook | *React, Flask, Python, REST API, SQLite, SQLAlchemy*

GitHub | 2026

- Built a full-stack web application with **6** interactive algorithm levels; architected a REST API in Flask with **12** endpoints connecting a React frontend to a Python backend with persistent data storage
- Engineered real-time game state management in React using hooks to track user inputs, eliminated search spaces, and compute optimal moves across binary search and sorting algorithm levels
- Designed a backend evaluation engine that validates user guesses against optimal algorithm logic and returns structured JSON feedback, enabling step-by-step computational reasoning for learners
- Designed a relational data model spanning **3** database tables connecting teachers, students, and scores, enabling teachers to create classes and track student progress in a live dashboard

Email Drafting Assistant | *Python, Flask, Gemini API, HTML/CSS, JavaScript*

GitHub | 2025

- Built a reusable template system with dynamic placeholder substitution across multiple tone-specific formatting styles and persistent draft storage using Flask and HTML/CSS
- Structured prompt context for the Gemini API by enforcing user-provided sender, recipient, and tone inputs, ensuring generated emails stayed grounded in user intent
- Implemented front-end tone selection features that passed structured user preferences to the LLM, controlling output style across formal, casual, and persuasive registers
